## NATURALLY, WE USE ALGAE TO MAKE OUR BOOTS BETTER.

In our ongoing effort to reduce Bogs' carbon footprint, we are partnering with BLOOM to produce the removable footbeds for our entire Autumn/Winter line-up. Your Bogs will be just as waterproof, just as comfortable, just as durable as always. But they will also have parts made from an algae-EVA-based hybrid, instead of the petroleum-based plastic foam used by most of the world's footwear companies. This partnership with BLOOM not only furthers our goal of using increasingly more sustainable materials; it also means cleaner air and lakes and rivers and streams.
